

The KOOR ESG SICAV fund was established by KOOR, which is growing at a fast pace. The demand for its services is increasing, so it has created this new transparent platform for raising funds from investors. The fund's priority is to invest in projects that KOOR implements in Slovakia and the Czech Republic.

The company operates on the Slovak and Czech markets and has already implemented more than 300 projects. Currently, it focuses mainly on the installation and operation of renewable energy sources, their management and energy saving.

1. we save

3. we install RES

2. we recover

4. we operate

In December 2022, KOOR received a silver medal in the ESG rating conducted by EcoVadis. This result placed the company among the top 25 percent of the world's best-rated companies in its sector that year.

The **KOOR ESG SICAV fund** is a safe and financially interesting opportunity for investors. His priority is to invest in KOOR and thereby support its growth. The fund's bonus is that KOOR is green not only declaratively, but also based on the taxonomy and ESG rating in the enviro section. Obtaining a silver medal in ESG certification is a guarantee that the projects implemented by KOOR reduce CO2 production and contribute to the improvement of the environment.
